

*Dear Friends,*

*Our family started Treasure Street as a gesture of love to help the Tuberous Sclerosis Clinic at Texas Scottish Rite Hospital for Children (TSRHC), which provided care for our daughter, Nicole. At the first event, we asked friends and family to bring a “treasure” for a small auction among party guests. Looking back, we are so proud of the amazing growth and generous support that have brought us to the spectacular annual event we have today – the signature event of Texas Scottish Rite Hospital for Children.*

*Now celebrating its 23rd year, Treasure Street continues to support the important work of the Hospital’s physicians and researchers as they strive to improve the lives of children with a variety of orthopedic and neurological conditions. Our original vision for this intimate gathering of friends has been far exceeded as Treasure Street now boasts more than 1,000 guests each year. Our hearts overflow each fall as we see longtime friends and new faces come together to show support for this wonderful organization. We invite you to get involved – as a corporate sponsor, an auction item donor, or by exploring some of the other opportunities on this site.*

*On behalf of the Treasure Street Board, the Host Committee and especially the patients and staff of TSRHC, we thank you for your interest in and support of Treasure Street. We hope to see you in October so you can share the magic of this amazing event.*

*Sincerely,*

*Dee and Dodge Carter and Family*
